

ENVIRONMENTAL COMMITMENT

Easy Camp Tenerife

Effective Date: 1 July 2026

1. Our Commitment

At Easy Camp Tenerife, we believe that the beauty of nature is Tenerife's greatest asset.

Our goal is to operate responsibly and encourage our customers to discover the island while respecting its unique natural environment.

Every decision—both ours and that of our customers—can help preserve this extraordinary place for future generations.

2. Respect for Nature

We respect Tenerife's unique ecosystems, including:

- pine forests;
- mountain areas;
- protected natural areas;
- the coastline;
- local flora and fauna.

We encourage everyone to enjoy these places responsibly and in accordance with applicable regulations.

3. Responsible Use of Equipment

We promote camping equipment rental as a way to support a more efficient use of resources.

We ensure that our equipment:

- is regularly inspected;
- is properly maintained;
- remains in use for as long as reasonably possible;
- is prepared for each new rental in accordance with high standards of quality and safety.

4. Reducing Our Environmental Impact

As part of our business activities, we strive to:

- reduce waste generation;
- minimise the use of single-use materials;
- promote electronic documentation;
- use resources responsibly;
- plan our operations in a sustainable manner.

We recognise that even small actions can have a positive impact on the environment.

5. Education and Awareness

We aim to support our customers by providing practical information about:

- responsible camping;
- environmental protection;
- the safe use of natural areas;
- the rules applicable to campsites;
- good practices when spending time in nature.

We believe that informed decisions help protect the places we visit.

6. Respect for Local Regulations

We encourage all our customers to comply with:

- applicable laws and regulations;
 - campsite rules;
 - decisions issued by the Cabildo de Tenerife;
 - temporary restrictions introduced to protect the natural environment;
 - prohibitions resulting from wildfire risks or other safety concerns.
-

7. Working with Nature

Our goal is not simply to rent camping equipment.

We seek to promote a way of travelling that:

- leaves the smallest possible environmental footprint;
- supports nature conservation;
- encourages responsible behaviour;
- showcases Tenerife's beauty while respecting its natural character.

8. What We Do Not Claim

We operate responsibly and continuously improve our practices; however, we do not make claims that cannot be objectively verified.

In particular, we do not claim that:

- we are a climate-neutral business;
- our activities have no environmental impact;
- all of our processes are fully environmentally friendly;
- we have achieved specific environmental targets unless these have been supported by appropriate evidence.

Our commitment is to continuous improvement, not to making unsupported environmental claims.

9. Shared Responsibility

Protecting the environment is a shared responsibility.

We encourage our customers to:

- leave every place they visit clean;
- reduce the amount of waste they generate;
- respect wildlife and natural habitats;
- use natural resources responsibly;
- take proper care of rented equipment.

Every responsible choice makes a difference.

10. Continuous Improvement

We will regularly review our operations and, wherever possible, implement solutions that further improve our environmental performance.

We are committed to growing our business responsibly, with respect for nature and local communities.

11. Updates to this Document

This Environmental Commitment may be updated from time to time to reflect the development of Easy Camp Tenerife, changes in applicable legislation, or the implementation of new environmental initiatives.
