

# RESPONSIBLE CAMPING GUIDELINES

**Easy Camp Tenerife**

**Effective Date:** 1 July 2026

---

## 1. Introduction

Camping is a unique way to discover Tenerife, allowing you to experience nature while respecting its beauty and the surrounding environment.

Easy Camp Tenerife encourages all customers to enjoy natural areas responsibly and to comply with all applicable regulations and safety guidelines.

---

## 2. Camp Only in Authorised Areas

Camp only in officially designated camping areas or in places where camping is permitted under applicable regulations.

Before your arrival, make sure you have the necessary permits or reservations and check the current status of your chosen campsite.

---

## 3. Respect Nature

During your stay:

- do not damage vegetation;
- do not damage trees;
- do not disturb wildlife;
- do not collect protected plant species;
- do not interfere with the natural environment.

Leave every place as you would like to find it.

---

## 4. Take Everything You Bring

Everyone using a campsite should take away all the waste they generate.

Where appropriate waste containers are provided, use them correctly.

If the bins are full or unavailable, take your waste with you and dispose of it responsibly elsewhere.

---

## 5. Use Fire Responsibly

Specific regulations regarding the use of fire apply in Tenerife.

Before lighting any fire, always make sure that:

- it is permitted;
- you are using an area designated for that purpose;
- there is no temporary fire ban due to wildfire risk.

Never leave a fire unattended.

---

## 6. Keep Noise to a Minimum

Respect other campsite users and local residents.

Avoid loud music, shouting and any behaviour that may disturb others or negatively affect wildlife.

---

## 7. Conserve Water

In many camping areas, water is a valuable resource.

Use it responsibly and remember that water available at some facilities may not be suitable for drinking.

---

## 8. Use Camping Equipment Responsibly

Rented camping equipment should always be used for its intended purpose.

Before using it, we recommend reading the instructions provided by Easy Camp Tenerife.

If you notice any damage or malfunction, please inform us as soon as possible.

---

## 9. Stay Safe

Before starting your trip:

- check the weather forecast;
- review local notices and safety information;
- inform your travel companions of your planned route;
- carry an adequate supply of drinking water;
- make sure you have suitable equipment for your planned activities.

Do not undertake activities beyond your experience or physical abilities.

## 10. Respect Local Regulations

Natural areas in Tenerife are subject to regulations established by the competent authorities.

Always comply with:

- applicable rules and regulations;
- posted signs;
- instructions issued by emergency services and public authorities;
- temporary restrictions;
- access prohibitions;
- official safety notices.

## 11. Support Responsible Tourism

During your stay in Tenerife, we encourage you to:

- respect local communities;
  - support local businesses and services;
  - behave respectfully towards local residents;
  - contribute to positive relationships between visitors and the local community.
-

## 12. Leave No Trace

Easy Camp Tenerife promotes the "**Leave No Trace**" principle.

This means that when you leave, the place should look exactly as it did before your arrival—or even better.

Every visitor plays a part in preserving Tenerife's natural beauty for future generations.

---

## 13. Our Role

Easy Camp Tenerife provides high-quality camping equipment and useful information to help you prepare for your stay.

The final decisions regarding where to camp, how to use the equipment and how to comply with applicable regulations remain the responsibility of each individual user.

---

## 14. Updates to These Guidelines

These Responsible Camping Guidelines may be updated periodically to reflect changes in legislation, evolving best practices and experience gained in the fields of environmental protection and safety.

---
